# MD REJAUL KARIM

## Senior Mobile Engineer

Android • Kotlin • Jetpack Compose • Flutter • Mobile Architecture • AI-Assisted Development

Dhaka, Bangladesh | +880 1724821030 | rejaul.karim.pro@gmail.com | linkedin.com/in/rktuhinbd | github.com/rktuhinbd

## SUMMARY

Senior Mobile Engineer with 8+ years building Android and cross-platform products across EdTech, FinTech, consumer apps, and POS. Strong in Kotlin, Jetpack Compose, Flutter, mobile architecture, and modernization of large production codebases. At 10 Minute School, improved crash-free sessions from **91% to 98.87%** and delivered product experiences used by **100K+ active users**; also built reusable mobile infrastructure deployed across banking and hardware-integrated systems.

## TECHNICAL SKILLS

**Languages:** Kotlin, Java, Dart

**Mobile Development:** Android SDK, Jetpack Compose, XML, Flutter, Coroutines, Flow, ViewModel, LiveData, Navigation Component, WorkManager, Paging 3

**Architecture:** MVVM, Clean Architecture, Repository Pattern, Modularization, Dependency Injection (Hilt)

**Networking & Data:** REST, Retrofit, OkHttp, Ktor, WebSocket, Room, DataStore, SQLite, Firebase

**Flutter:** Bloc, Riverpod, GetX, GetIt, Dio, Hive, SQFlite, Platform Channels

**Device Integration:** Bluetooth, USB, LAN/TCP sockets, ESC/POS, Sunmi printer SDKs

**Testing & Delivery:** JUnit, LeakCanary, Git, GitHub Actions, Gradle KTS, ProGuard/R8, Play Console

**AI-Assisted Development:** ChatGPT, Claude Code, Cursor, Antigravity IDE; agentic coding workflows, MCP-based tool integration, multi-agent task orchestration

## EXPERIENCE

**VALT** **Feb 2026 - Aug 2026**

*Senior Software Engineer* *Sylhet, Bangladesh*

- Modernized a legacy Android POS/KDS platform, migrating XML screens to Jetpack Compose, LiveData/custom threading to Coroutines and Flow, and SQLite persistence to Room.
- Designed **UAPM (Universal Android Printing Module)**, a reusable printing layer that decoupled application logic from printer I/O across a **12-device hardware fleet**.
- Delivered production POS and KDS features across restaurant and retail workflows, including Bluetooth/USB/LAN printing and real-time kitchen order synchronization.

**Repocket Pte. Ltd.** **Nov 2025 - Jan 2026**

*Senior Mobile Application Developer* *Singapore (Remote)*

- Delivered production features across Android and iOS in Flutter/Dart within a distributed remote engineering team.
- Built the referral feature end-to-end, increasing user engagement by **15%** in its first month.

**10 Minute School** **May 2023 - Jun 2025**

*Specialist, Engineering (Android)* *Dhaka, Bangladesh*

- Led the application-wide XML-to-Jetpack-Compose migration, building **30+ reusable Compose/XML components** and shared UI guidelines adopted team-wide.
- Resolved production issues through Crashlytics and root-cause analysis, raising crash-free sessions from **91% to 98.87%**.
- Owned UI engineering for core learning surfaces and TARA, an adaptive literacy/numeracy app built with Monash University; shipped **2-3 major releases per quarter** with product, UX, QA, and backend teams.

**10 Minute School** **Aug 2021 - May 2023**
*Associate Software Engineer* *Dhaka, Bangladesh*

- Migrated the monolithic Android codebase from Java to Kotlin and initiated Compose adoption across a platform serving **100K+ active users**.
- Built a class-booking system for **360K+ users**, achieving a **19% conversion rate** and increasing attendance from **16% to 35%**.
- Shipped an interactive exam module (**+23% retention**), gamified learning UI (**+12% engagement**), and a redesigned course landing page (**+13% purchases**).

**Millennium Information Solution Ltd.** **Oct 2020 - Jul 2021**
*Assistant Software Engineer* *Dhaka, Bangladesh*

- Built Android features for three live Islamic banking apps on MISL's Ababil core banking platform.
- Developed a reusable **.aar KYC SDK** with ML Kit facial recognition and NID verification for all three apps, increasing account creation by approximately **25%** on average.

**CodeNext Ltd.** **Apr 2019 - Sep 2020**
*Software Engineer* *Dhaka, Bangladesh*

- Built three B2B2C Android applications end-to-end - a wholesale marketplace, salesman app, and POS tablet app - from Adobe XD designs through Play Store release.
- Translated **30+ Adobe XD prototypes** into Material Design-compliant, cross-device Android UI components.

**Digital Internet Marketing** **Apr 2018 - Oct 2018**
*Android Developer* *Dhaka, Bangladesh*

- Built and shipped a real-time Android car-rental booking app in Java using Firebase Realtime Database and FCM for booking updates and notifications.

## EDUCATION

**BSc, Computer Science & Software Engineering** 2013 - 2018
*American International University Bangladesh (AIUB)*

## SELECTED APPS

**10 Minute School** - Play Store | **TARA** - Play Store | **Repocket** - Play Store | **AIB i-Banking** - Play Store

## CERTIFICATIONS & TRAINING

**Mobile Application Development using Android** - BDSkills / BITM (Jul 2024) | **Android Development** - Bangladesh Computer Council / Ernst & Young; validated by George Washington University (Feb 2018)

## LANGUAGES

**Bengali** (Native) • **English** (Professional Working) • **Hindi/Urdu** (Limited Working)
